Data Privacy Notice

SSPC is concerned about protecting the privacy of our students. If you pass the course or certification exam, you have the option of having your name and contact information made available on our website via a public search for coatings professionals. You must opt-in if you wish to be included in the search, otherwise your information will not appear.

Please check the appropriate box below:

___ Yes I want my contact information to appear on the SSPC website.
___ No I do not want my contact information to appear on the SSPC website.
# Work Experience

This section is to be completed in reverse chronological order, starting with your most current employer. You may duplicate as many copies of this page as is necessary for complete documentation of your work history.

Related work experience is defined as work as an abrasive blaster and spray painter in an industrial or marine environment. Eligibility is subject to verification by SSPC.

The following information **must** be included in your description:

- Type(s) of blasting and painting work performed
- Type(s) of surface preparation equipment used
- Type(s) of coatings applied
- Type(s) of structures worked on

Please note: Supervisory experience is not sufficient.

Training History

Accepted formal training includes:

1. Any SSPC In-Person or On-line Training Course. SSPC courses range 8 to 40 hours and can be found at: http://www.sspc.org/training/SSPC_Training_Programs_from_A_Z/. Please note: The recommended On-Line Training Program for candidates to obtain their formal training is: Applicator Training Basics E-Course – 80 hours. This e-course covers the "Core Body of Knowledge" of ACS-1/NACE 13 requirements for surface preparation and application as well as safety in painting.

2. Specialty modules that meet the full body of knowledge: SSPC has added seven new modules to help contractors meet the Full Body of Knowledge as outlined in SSPC ACS-1/NACE 13. The CD, containing a student manual, written exam, answer key, instructor manual and slide presentation, will provide you with a complete plan on how to successfully provide the training to your workers. A list of CD topics may be found at: http://www.sspc.org/SSPC-Specialty-Module-CDs/.

3. Professional Development or Continuing Education: SSPC, NCCER, IUPAT, FTI application specialist training, college, apprenticeship or trade school courses in the sciences, math, English or equivalent that meet the SSPC Transition Plan Body of Knowledge. The SSPC program administrator must approve any formal training and the candidate must submit the training certificate for the course.

4. OSHA 10 - Occupational Safety & Health Issues Course (10 Hrs) or OSHA 30 (30 Hrs.)

5. Lead Health and Safety Training

6. Documented Supplier Training on equipment operation or application/handling or material

7. Toolbox and other Safety and Health Training

8. Local Shipyard or Local Safety/Council or Chemical/Refinery Plant Training related to coatings

9. SSPC Applicator Training delivered by an Instructor approved to provide the ATT Curriculum

10. If a contractor’s Quality Control Supervisor gives a coatings course to his workers, SSPC will accept this. We would need a copy of the course curriculum and the number of hours that the course is.

11. If a certified CAS person teaches a 20 + hour coatings course, SSPC will accept this. We would need a copy of the course curriculum and the number of hours that the course is.

12. Level One – Essentials of Paint and Painting Technology (Certification MPI ACT – MPI Architectural Coating Technologist)
